NOTED GUERRILLA BURIED AT DALLAS.

Captain S. P. Emmerson Once Attempted the Capture of Chicago -Lost Cause Dear to Him.

REPUBLIC SPECIAL.

Dallas, Tex., Oct. 20.-Captain S. P. Emmerson, formerly of Dalias, died in Denver, Colo., on Tuesday last and was buried in this city to-day. Captain Emmerson was one of the most noted characters produced on the Southern side by the war between the States. A native of Kentucky, he had strong Southern Inclinations, and when the war came on he raised and commanded an "irregular" Confederate force, commonly known as guerrillas.

Many of the exploits of Emmerson's com-

known as gnerrillas.

Many of the exploits of Emmerson's command were as daring and sensational as those of Quantrell, Morgan or Mooby. In one of his raids he was captured and imprisoned in Kentucky, but made a boid escape by cutting through the prison roof. He was soon in action again, and in 1853 or 1854 had command of the force of about 189 men that rote into Chicago with the intention of causing an uprising that should capture or destroy the city. In this hope Emmerson was disappointed. He escaped capture, as he often related, by stealing a borse and riding beyond the lines of danger. He then turned the horse loose and hoped it got back to its owners," as he always expressed it.

Captain Emmerson was a friend of Frank James in war days, and also of City Marshal Pulliam of Ardmore, I. T. These men have often spoken highly of him as a man and soldier. Captain Emmerson lived for many years on his Dallas County farm, near Richardson, twelve miles from this city. He was an old bachelor and inclined to reticence on the subject of the Civil War, particularly in regard to his own part in it. He never got over his grief for the "Lost Cause." Before going to Denver, when his health failed him, he called on Mrs. Kate Cabell Currie of Dallas, former national president of the Poughters of the Confederacy and now at the head of the local chapter of the order. He said to her:

"When the Southern Confederacy perished I lost what stood to me in my affections the same as do a wife, children and family ties to other men. When I am dead, which will be soon, I ask that you see that I am buried among my own kind of people. I desire that a plain soit of Confederate gray by my burial garments. I want none but former Confederate soldiers to act as pallbearers and to place me in the grave. I desire that a plain soit of Confederate soldier be erected over the center of my grave and that on that monument ended has currie promised Captain Emmerson that she would do as he had requested. When nothined last Tuesday of his death, she made

TO LAND JAPANESE WOMEN. An Attempt Made, but Customs Iu-

spectors Frustrated It.

REPUBLIC SPECIAL.
San Francisco, Cal., Oct. 20.—Vigilant customs inspectors frustrated an attempt yesterday to land three Japanese women from the steamer America Maru after a landing had been once denied.

The Japanese women in question are sini Nichida, Sono Masuda and Roma Miyagawa. They were refused a landing because of the belief of the immigration officials that they were brought to this country for immoral purposes. Customs Inspector Frank Barry, while guarding the gangplank of the steamer yesterday, was approached by Charles Geffeney and Robert Lyons, an attorney, who presented orders that the women be permitted to land. The orders were in the form usually employed in such cases and were signed by A. H. Geffeney.

After receiving the orders Barry called them to the attention of W. J. Hendricks, a fellow-inspector. Hendricks declined to honor the orders in view of previous instructions that he should detain the women on board. In order to be on the safe side, however, Hendricks called up the Immigration Office by telephone. He talked with Inspector Geffeney and was advised that his action had been proper and that the women were not to be released.

Charles Geffeney, who presented the orders of release, is a brother of Inspector Geffeney. He is an interpreter of Japanese and has acted in that capacity in the courts. Inspector Geffeney is unable to explain how the orders signed by him came into the hands of his brother and Attorney Lyons. He says, however, that he was in the habit of signing such orders in blank and that it is possible a few were left lying around where they might come into the hands of thers. The inspector femiled all connection with yesterday's attempt to land the women in question from the America Maru. Despite this denial Immigration Commissioner North will make an investigation.

Morphine Habit Positively Cured!

One Thousand Persons Have Been Successfully Treated for the Morphine, Opium, Cocaine, Allied Drugs and Whisky Habit Without a Single Failure.

Hundreds of letters have been received from parties who were slaves to the drug and drink habit and who had tried almost every other treatment in vain, but they are now rejoicing in absolute freedom, as they have been cured by the new discovery known as the Antinarcotin Treatment, which in four to eight days positively and permanently curse every case, even those so-called incurable cases. This drug and drink habit, which is a curse to humanity, is a disease and cannot be cured by will power. The reason that this grand discovery makes such phenomenal cures is that it is not a substitute, but an antidote which eradicates the stimulant, be it morphine, cocaine or any like drug or stimulant, within three days, and within a week's time it places the patient upon his or her feet a new person. It also eliminates nervousness and pain and brings on a natural boothing and dreamless sleep. It is positively the only cure known to science which permanently cures and leaves the constitution of the patient strong and vigorous. Any one calling or sending their name and address to G. H. Roose, Mgr. Antinarcotin Sanitarium, successor to Narcotism Hospital, 2018 Lucas avenue, St. Louis, Mo., will receive full information as to this wonderful cure: also a long list of testimonials from responsible people, which will make the most skeptical a believer in the efficaciousness of Antinarcotin.

When the trouble started we had to put some of the boys out of the house and then there was 'bad blood.' Nothing was done, however, until the next party, which was at Leff Joyce's.

DEPARTMENT AFTER INDIANS.

Ponching Redskins Are Causing Trouble in Colorado.

REPUBLIC SPECIAL.

Denver, Ccio. Oct. 22.—Governor Thomas has received telegraphic advices from the Indian agent of the White River Ute Reservation in Utah in regard to the Indian invasion reported Tuesday. In response to Governor Thomas's telegram to the Department of the Interior, that department for the first time acted promptly and notified the Indian Agent in Utah concerning the marauders.

The dispatch informed Governor Thomas that every necessary means would be taken to get the redskins back to their reservation before more damage is done. This assurance is also an admission by the agent that the indians have escaped vigilance and are trespassing upon the State domain. Dispatches received by Game Warden Johnson also continued the reports of Tuesday and lead to the belief that there are at least 250 redskins fliegally within Colorado's borders, poaching upon the great herds of game which are now moving down from the North to their winter quarters.

So far no conflicts are reported, but the indignation of the settlers in the vicinity of the invasion has reached such a pitch that trouble is likely to occur should any meetings take place.
